

# DAYSRING AIRPARK NEWS LETTER

## February 1, 2007

Before we know it, summer will be here; and so, we are in the process of making plans to do more work here at the airpark. We are also planning a bigger and better 2007 fly-in, date to be announced.

There has been a lot of talk lately, among pilots, about convincing politicians and the general public that airports are an asset to the communities they serve. If you agree and feel that our development is a good idea, I would ask, that you email a letter of support to our local community representatives. Emails forwarded to us will be posted on the website. I've included these links below to help direct your letters of support to the right people. Our airpark development is located in district 4.

Municipality of Lunenburg: <http://www.modl.ca/CouncilContact.html>

Town of Bridgewater: <http://www.bridgewater.ca/town-council/bridgewater-town-council.html>

Town of Lunenburg: <http://www.explorelunenburg.ca/view.php?business-council>

Michael Backer MLA: michaelbakerm1a@ns.sympatico.ca

I'm also looking for comments, suggestions and feedback, on what you think about "The Dayspring Airpark and Soaring Heights Community Project." Please let us know if we have permission to place your feedback on our website.

I would also like to let anyone whom is interested in knowing that we have lot 18 cleared and grubbed off; ready to build on. This is a, \$5,000.00 dollar plus savings to the new property owner. This lot is in my opinion one of, if not, the most attractive building lot in the whole development for which to put a home and hanger on. It is over an acre in size and gently slopes to a peaceful brook which borders the rear of the property.

Imagine being able to taxi from your front yard to the mid point of a 2800 foot runway; or being able to sit in your front yard, deck or porch and watch small aircraft take off and land. As a bonus the runway windsock is located at the corner of the front yard. This lot is a must see to appreciate its potential. I guarantee this will be one of the first lots to go.

I'm excited about 2007. I think it's going to be a great year. I look forward to sharing it with all our new friends. There will be a lot of changes on our site this year, so check it out once in a while for news on what's happening.
